

## ABOUT ME

Through my education, I have paired my love for the outdoors with a passion for design to help develop practical, performance driven products. I believe that I have a commitment to design products and systems that promote the passions of others, while using forward thinking and sustainable methods.

## EXPERIENCE

*Industrial Design Intern* 2017  
Rocketship Inc. | Provo, UT

While working within a design consultancy I had the opportunity to be involved in all levels of the design process, from pitching to clients, building prototypes, and preparing the final specifications for manufacturing. While employed I also represented the company at Utah's final Summer Outdoor Retailer show.

*Pack and Apparel Design Intern* 2016  
REI Co-op | Kent, WA

Working within the technical pack and apparel design teams at the nation's largest outdoor retail co-op, I participated in product research, prototype testing and the development of future concepts.
